## SIGNATURE TREATMENTS

### HOT STONE THERAPY 75 mins

*Originating in Tucson, Arizona, La Stone Therapy combines water heated basalt lava stones with traditional massage for an unforgettable experience. Each massage stroke with one of these stones is equal to approximately ten regular strokes, offering the client a deeper state of relaxation, health and well-being than that of a typical massage. La Stone uses aromatherapy and hot oils to warm and invigorate the body.*

### ESPA HOLISTIC BACK FACE AND SCALP TREATMENT WITH HOT STONES 1hour 55 mins

*A powerful stress releasing treatment using hot stones to work on deep seated tension and restore balance to vital energy points.*

*The initial, deep cleansing back exfoliation is followed by the hot stone back massage with essential oils restoring equilibrium to mind and body. Hot stones are placed along spine, shoulders and neck to soothe, relax and harmonise.*

*The facial includes massage with deeply nourishing facial oil and the application of an intensive face treatment mask, tailored to your individual needs. Whilst the mask is taking effect, the Oriental head massage takes place to help clear the mind, calm the spirit and ease tension. The result is re-hydrated, nourished and soothed skin combined with a sense of deep relaxation.*

### ESPA TOTAL HOLISTIC BODYCARE WITH HOT STONES

*1hour 55 mins*

*Chakras are the seven subtle energy centres in the body which affect our equilibrium and inner harmony. Recognised in both Ayurvedic and Chinese philosophies, blocked and congested Chakras can affect the body and mind both emotionally and physically. Natural energies are stifled and the zest for life is lost or subdued.*

*After a full body exfoliation, this holistic treatment continues with the placing of stones along the spine, at vital energy points on hands and feet and the Chakras around the body. The body is massaged using individually tailored essential oils combined with the use of hot stones to release tension. Critical tension points are massaged around the eyes and ears, before an acupressure head massage is given. This full body treatment ends with gentle stretching to help release deep-seated tension around neck and shoulders, and leave your body feeling soothed and your spirit calm.*
